

GRADE 3 MATH

Mathematics Assessment Report, 2021–2022

This report shows whether FIRSTNAME met grade-level expectations and is on track for the next grade level. **This assessment is just one measure of how well your student is performing academically. The results from this assessment should be used in combination with other indicators of achievement in drawing conclusions about your student's performance in mathematics.**

Visit the NJ Parent Portal at nj-results.pearsonaccessnext.com and use the following code to access your student's performance results online.

YBQcmVnWq3NG

See side 2 of this report for specific information on your student's performance in mathematics.

How Did FIRSTNAME Perform Overall?

Performance Level 2

- Level 5** Exceeded Expectations
- Level 4** Met Expectations
- Level 3** Approached Expectations
- Level 2** Partially Met Expectations
- Level 1** Did Not Yet Meet Expectations

Your student's score

722

For additional information regarding your student's overall performance or the use of Not-Tested or Void codes, please see the Score Interpretation Guide at <https://nj.mypearsonsupport.com>.

State Average

745

How Students in New Jersey Performed

If your student took the assessment several times, under similar circumstances, your student would likely score within the range between the reported scale score plus or minus 6.1 points.

How Did Your Student Perform in Areas of Mathematics?

MAJOR CONTENT

Your student performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving problems involving multiplication and division, area, measurement, and basic fraction understanding.

EXPRESSING MATHEMATICAL REASONING

Your student performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your student performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving perimeter, place value, geometric shapes, and representations of data.

MODELING & APPLICATION

Your student performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.

Expectations

Met or Exceeded
Expectations

What are the New Jersey ELA/Math assessments? The tests measure how well students have learned grade-level material in English language arts and mathematics. Students who meet or exceed expectations are likely on track for the next grade or course and, ultimately, for college and careers. The tests include questions that measure your student's fundamental skills and knowledge, and require students to think critically, solve problems, and support or explain their answers. The tests are one of several ways to help parents/legal guardians and teachers understand how well children are learning. The results also give your school and district important information to make instructional improvements.

How Students in New Jersey Performed

If your student took the assessment several times, under similar circumstances, your student would likely score within the range between the reported scale score plus or minus 6.1 points.

How Did Your Student Perform in Areas of Mathematics?

MAJOR CONTENT

Your student performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving problems involving addition, subtraction, multiplication and division, place value, fraction comparisons, and addition and subtraction of fractions with same denominators.

EXPRESSING MATHEMATICAL REASONING

Your student performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your student performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving number and shape patterns, simple measurement conversions, angle measurements, geometric shapes classification, and representations of data.

MODELING & APPLICATION

Your student performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.
