

New Jersey Student Learning Assessment – Science SHIPPING CARRIER RETURN INSTRUCTIONS

District Test Coordinators will use FedEx to return certain NJSLA-S scorable and non-scorable test materials to Measurement Incorporated (MI). These include test booklets of all forms (regular, braille, large print (LP), Spanish) and answer documents (used and unused). A pickup of these test materials must be scheduled and completed no later than 5 business days after testing is complete.

NOTE:

- FedEx Paks are provided in this coordinator kit for small shipments of standard size test booklets or answer documents. Use cardboard boxes to return braille or LP test booklets instead of the FedEx Paks.
 - You may place more than one school's materials in the same package to reduce the number of packages. Scorable answer documents for each school and grade must have their own header. Headers are not necessary for non-scorable documents. Ensure that no extraneous materials are returned (e.g., scratch paper).
 - FedEx return labels, and scorable and/or non-scorable return labels are in this coordinator kit.
1. Once materials are ready to ship, the Test Coordinator will apply one FedEx Ground return label and one YELLOW scorable MI label to each scorable package being returned. The Test Coordinator will apply one FedEx Ground return label and one GREEN non-scorable MI label to each non-scorable package being returned.

3. Refer to the back of the FedEx Ground Return Label for instructions on returning your materials. Pickups must be scheduled at least 24 hours in advance. You must provide FedEx with the following information:
 - The physical location from where packages are to be picked up. (i.e., where materials were originally delivered to)
 - The estimated number of packages to pick up.
 - A tracking number from any one of your FedEx return label(s).
4. Retain a copy of all FedEx tracking numbers for record-keeping purposes.
