General Information

- The braille test booklet is divided into four volumes, one for each unit. There is also a single regular-print test booklet in the test kit so that the Test Administrator can provide testing accommodations if needed. However, some wording is different between the braille and regular-print test booklets. These differences include the directions about how to record student answers and various test items that are listed in the Additional Notes in the back of each test booklet.
- The beginning of each braille test booklet has page numbers prefixed with a “t,” for example, t1, t2, t3, etc. These pages contain a cover page, copyright notice, a list of special symbols, and transcriber’s notes. Page numbers will start over at “1” after this section. Refer to the Test Administrator Special Notes included in the test kit. Pages are numbered sequentially in the lower right-hand corner of the braille test booklet. The corresponding print page numbers are in the upper right-hand corner of the braille test booklet.
- The student will write answers using a braille writing device (e.g., braillewriter, braille note-taker, slate and stylus) or other method identified in their Individualized Education Program (IEP). The paper that the student uses with the braille device will be referred to as answer sheets in the script.
- Refer to **Sections 6.0** and **7.0** of the *Spring 2024 Test Administrator Manual* for more information on tasks to complete before, during, and after testing.
- The words “Go On” are omitted at the bottom of the page. The word “Stop” is retained at the bottom of the page.

Reminders for Test Administrators before Braille Testing

- Before beginning each unit, write the student’s name on the top of the braille test booklet. The student will also sign their name on the braille test booklet for Unit 1.
- Make sure you have a list of the testing accommodations for the students testing and have received the proper training from your School Test Coordinator (STC). Consult **Appendix A** of the *NJSLA and NJGPA Accessibility Features and Accommodations (AF&A) Manual* for the list of available accessibility features and accommodations for paper-based testing.
- If the students in your group require a Human Reader, follow the protocol outlined in **Appendix B** of the *AF&A Manual*. Please note that the text in the regular-print test booklet may differ from the braille test booklet. These instances are listed in the Additional Notes section of the Transcriber’s Notes document. Image descriptions should be read aloud to the students.
- If one or more students are testing with extended-time accommodations, you will need to adjust the amount of time each student will have to complete each unit. Refer to each student’s testing accommodations for information on extended time, and follow the guidelines outlined in **Appendix E** of the *AF&A Manual*.
- If one or more students require a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own. For more information, see the table entitled Accommodations for Multilingual Learners Taking the Paper-Based Assessments in **Appendix A** of the *AF&A Manual*.
- Also see **Appendix J**: NJSLA and NJGPA for Students with Visual Impairment, Including Blindness in the *AF&A Manual*.

NJSLA–S Grade 5 Braille 2024

Reminders for Test Administrators during Braille Testing

- Refer to **Sections 2.8** and **2.9.1** of the *Spring 2024 Test Administrator Manual* for guidance on redirecting students and clarifying directions during an administration. Test Administrators are permitted to clarify only scripted administration instructions after reading the script word-for-word. No charts, graphics, prompts, or test items may be clarified.
- Braille test booklets may be disassembled during testing to make it easier for the student to access previous pages. For example, an item may refer to a table or graphic on a previous page. Sometimes a single item may take up multiple pages. When breaks are taken, the pages should be clipped together and secured.
- The student should number their responses to be sure that their answers can be transcribed accurately into the test booklet, and then into TestNav. If an item has multiple parts, they should label each part clearly.
- During the test, a student who is recording their responses electronically may emboss a copy of their answers to review. A final copy of the student’s responses must then be printed for transcription purposes. Both the embossed and final copies of the student’s work must be given to STC after testing.
- For breaks during test units, have students place a bookmark in their test booklet to help them identify their place in the exam when they return.

Reminders for Test Administrators after Braille Testing

- If the student recorded their answers electronically, Test Administrators should print out a copy of the student’s answer sheet or ink print the student’s answers in braille.
- If the student recorded their answers using a computer or braille note-taker, be sure to delete the student’s answer sheet file completely from the device after the student has printed it.
- If the student used any electronic scratch paper or made any electronic notes, ensure that these files are deleted.
- Braille test booklets that were disassembled for testing must be reassembled for return. To reassemble the test booklets, you may staple or binder clip all pages for return to Measurement Incorporated. It is critical that schools check the number of pages in the test booklet prior to disassembling the test booklets to help ensure that all pages are returned. Failure to return all pages will be considered a breach of security.

Using the Test Administrator Script

The administration script in this document will be used for all units of the NJSLA–S. The script must be used with the *Spring 2024 Test Administrator Manual*. On the first read-through, Test Administrators (TAs) are required to adhere to this script for administering the NJSLA–S. Read word-for-word the bold instructions in each “**Say**” box to students. Do not modify or paraphrase the wording in the “**Say**” boxes. Some of the “**Say**” boxes are outlined with a dashed line and should be read aloud **only** if they are applicable to the students testing. Some directions may differ slightly by unit and are noted within the administration script. Text that is outside the “**Say**” boxes includes directions for Test Administrators to follow and should not be read to students.

However, some wording is different between the braille and regular-print test booklets. These differences include the directions about how to record student answers and various test items that are listed in the Additional Notes in the back of each test booklet.
- The beginning of each braille test booklet has page numbers prefixed with a “t,” for example, t1, t2, t3, etc. These pages contain a cover page, copyright notice, a list of special symbols, and transcriber’s notes. Page numbers will start over at “1” after this section. Refer to the Test Administrator Special Notes included in the test kit. Pages are numbered sequentially in the lower right-hand corner of the braille test booklet. The corresponding print page numbers are in the upper right-hand corner of the braille test booklet.
- The student will write answers using a braille writing device (e.g., braillewriter, braille note-taker, slate and stylus) or other method identified in their Individualized Education Program (IEP). The paper that the student uses with the braille device will be referred to as answer sheets in the script.
- Refer to **Sections 6.0** and **7.0** of the *Spring 2024 Test Administrator Manual* for more information on tasks to complete before, during, and after testing.
- The words “Go On” are omitted at the bottom of the page. The word “Stop” is retained at the bottom of the page.

Reminders for Test Administrators before Braille Testing

- Before beginning each unit, write the student’s name on the top of the braille test booklet. The student will also sign their name on the braille test booklet for Unit 1.
- Make sure you have a list of the testing accommodations for the students testing and have received the proper training from your School Test Coordinator (STC). Consult **Appendix A** of the *NJSLA and NJGPA Accessibility Features and Accommodations (AF&A) Manual* for the list of available accessibility features and accommodations for paper-based testing.
- If the students in your group require a Human Reader, follow the protocol outlined in **Appendix B** of the *AF&A Manual*. Please note that the text in the regular-print test booklet may differ from the braille test booklet. These instances are listed in the Additional Notes section of the Transcriber’s Notes document. Image descriptions should be read aloud to the students.
- If one or more students are testing with extended-time accommodations, you will need to adjust the amount of time each student will have to complete each unit. Refer to each student’s testing accommodations for information on extended time, and follow the guidelines outlined in **Appendix E** of the *AF&A Manual*.
- If one or more students require a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own. For more information, see the table entitled Accommodations for Multilingual Learners Taking the Paper-Based Assessments in **Appendix A** of the *AF&A Manual*.
- Also see **Appendix J**: NJSLA and NJGPA for Students with Visual Impairment, Including Blindness in the *AF&A Manual*.

Reminders for Test Administrators during Braille Testing

- Refer to **Sections 2.8** and **2.9.1** of the *Spring 2024 Test Administrator Manual* for guidance on redirecting students and clarifying directions during an administration. Test Administrators are permitted to clarify only scripted administration instructions after reading the script word-for-word. No charts, graphics, prompts, or test items may be clarified.
- Braille test booklets may be disassembled during testing to make it easier for the student to access previous pages. For example, an item may refer to a table or graphic on a previous page. Sometimes a single item may take up multiple pages. When breaks are taken, the pages should be clipped together and secured.
- The student should number their responses to be sure that their answers can be transcribed accurately into the test booklet, and then into TestNav. If an item has multiple parts, they should label each part clearly.
- During the test, a student who is recording their responses electronically may emboss a copy of their answers to review. A final copy of the student’s responses must then be printed for transcription purposes. Both the embossed and final copies of the student’s work must be given to STC after testing.
- For breaks during test units, have students place a bookmark in their test booklet to help them identify their place in the exam when they return.

Reminders for Test Administrators after Braille Testing

- If the student recorded their answers electronically, Test Administrators should print out a copy of the student’s answer sheet or ink print the student’s answers in braille.
- If the student recorded their answers using a computer or braille note-taker, be sure to delete the student’s answer sheet file completely from the device after the student has printed it.
- If the student used any electronic scratch paper or made any electronic notes, ensure that these files are deleted.
- Braille test booklets that were disassembled for testing must be reassembled for return. To reassemble the test booklets, you may staple or binder clip all pages for return to Measurement Incorporated. It is critical that schools check the number of pages in the test booklet prior to disassembling the test booklets to help ensure that all pages are returned. Failure to return all pages will be considered a breach of security.

Using the Test Administrator Script

The administration script in this document will be used for all units of the NJSLA–S. The script must be used with the *Spring 2024 Test Administrator Manual*. On the first read-through, Test Administrators (TAs) are required to adhere to this script for administering the NJSLA–S. Read word-for-word the bold instructions in each “Say” box to students. Do not modify or paraphrase the wording in the “Say” boxes. Some of the “Say” boxes are outlined with a dashed line and should be read aloud **only** if they are applicable to the students testing. Some directions may differ slightly by unit and are noted within the administration script. Text that is outside the “Say” boxes includes directions for Test Administrators to follow and should not be read to students.

Instructions for Taking a Break during Testing

The following are permitted during test administration at the discretion of the TA:

- One stretch break of up to three minutes is allowed for the entire classroom during testing for each unit. The stopping time should be adjusted by no more than three minutes if there is a stretch break.
- Individual restroom breaks are allowed during testing (do not adjust; stop time except for students who have frequent breaks in accordance with **Appendix A**, Administrative Considerations for All Students, in the *NJSLA and NJGPA Accessibility Features and Accommodations (AF&A) Manual*, which is available at the [New Jersey Assessments Resource Center](#), located under **Educator Resources > Test Administration Resources**).

TAs must adhere to the following security measures:
