Answer any questions.

Regular time:

Say:	<p>You will have 60 minutes to complete this unit. I will let you know when you have 10 minutes of testing time left.</p> <p>You may begin working now.</p>
-------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------

For extended time students only:

If students are testing with extended time accommodations, it may be necessary to adjust the amount of time students will have to complete this unit. Refer to the student’s accommodations.

Say:	<p>Option A:</p> <p>You will have _____ hours to complete this unit. I will let you know when you have _____ minutes of testing time left. You may begin working now.</p>
	<p>Option B:</p> <p>You may take as much time as you need to complete this unit, up to the end of the school day. I will let you know when there are _____ minutes remaining. You may begin working now.</p>

Write the starting time and stopping time in the timing box (Figure 2.0 of the *Spring 2022 Test Administrator Manual* Timing Box Example). Actively proctor while students are testing:

- Redirect students as necessary (Section 2.9.1).
- Collect test materials as students complete testing (Section 2.10).
- If students have questions about an item, tell them, “Do the best you can.” (Section 2.8)
- If students indicate that a test item seems irregular, refer to Section 7.3.1.

Instructions for Taking a Break during Testing

The following are permitted during test administration at the discretion of the TA:

TAs must adhere to the following security measures:

- Students must be supervised at all times during breaks.

- Students are **not permitted to talk to each other** during testing or breaks during testing.
- Students are **not permitted** to use electronic devices, play games, or engage in activities that may compromise the validity of the test.

If taking a three-minute stand-and-stretch break during the unit:

Say:	Please stop testing, place your scratch paper in the test booklet, and close your test booklet. We will take a silent three-minute stretch break. No talking is allowed.
-------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

After taking a classroom break, ensure students open their test booklets and continue testing where they left off.

Say:	Open your test booklets and continue testing.
-------------	------------------------------------------------------

Continue to actively proctor while students are testing.

Instructions for when 10 Minutes of Unit Time Remain

When 10 minutes of unit time remain:

Say:	You have 10 minutes remaining.
-------------	---------------------------------------

Instructions for Ending the Unit

When the unit time is finished, read the following optional “**Say**” box if there are students still actively testing.

Say:	Stop working. Testing time has now ended. Put a bookmark in your test booklet at the end of the unit. Close your test booklet. Check that your name is written on your test booklet. I will collect your test materials.
-------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- Collect all test materials.
- Return all test materials to your STC. Report any missing materials and absent students.
- Report any testing irregularities to your STC.

If more than one unit is being administered in the same day, allow students to take a short break (e.g., restroom break or stretch break) or extended break (e.g., lunch). Once students have returned and are seated, read the script starting at the very beginning, and move on to the next unit.
